Planning for a SD/I VOAD Conference Calls. During a Disaster we have discussed having conference calls within the first 72 hours. We now have a audio conference service which we can use. I would like to test the system by having a SD/I call before this month's meeting. **Please check your calendar for November 20th at 10AM.** You will be given a number to dial and then enter the passcode. I then would like to extend these calls to include all of Southern California VOADS.
